

Mobile Web Final Project - Website Plan & Draft Website

Jayden Inniss - A01363743

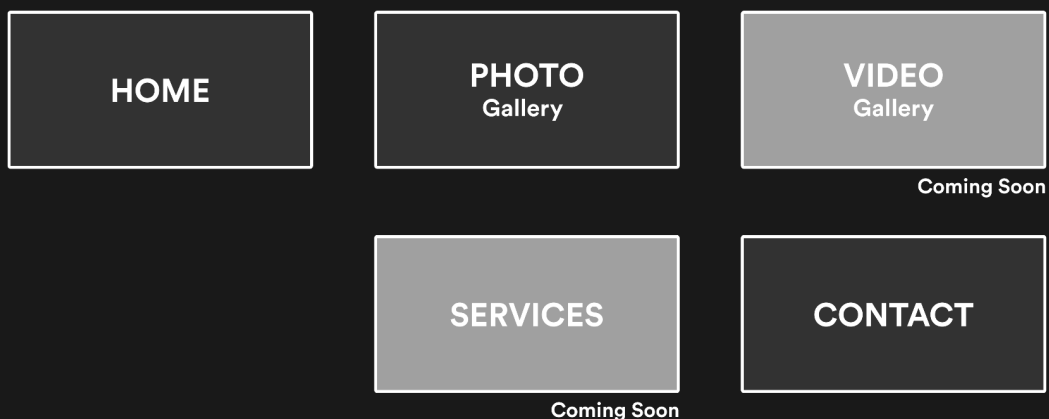

Site Description

This site will be my personal website/portfolio for my business Whitewater Productions. My goal is to replace my existing Wix-built site at jaydeninniss.com.

Whitewater Productions is a multimedia production company specializing in sports/adventure photography and videography. I have three years experience working freelance photo/video for a wide range of clients, including WORCA Whistler, Nicklaus North Golf Course, Partners in Tourism, Whistler Real Estate, Helijet and many more! Most recently, I have gained experience working as a camera operator for Crankworx Whistler 2023 and FIL Luge World Championships 2023.

I am building a site where I can show off my past work experience and display my photography/videography services.

Site Map

Both the header and footer contain the global nav.
These link to the homepage anchors. Those anchors link to the respective pages.
